

INDUSTRIAL TUBE

BY EXPERTS FOR EXPERTS

The knowledge platform
for the industry

INDUSTRIAL TUBE

CAPTURE, ENRICH AND
PROVIDE KNOWLEDGE.

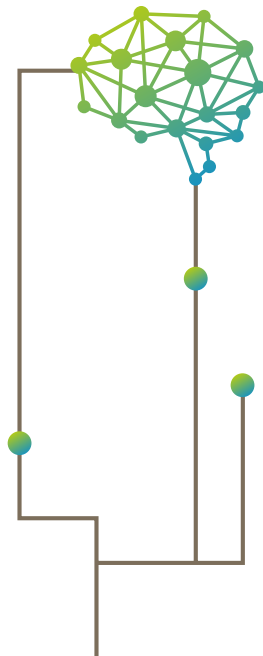

1

Industrial Tube from **BILFINGER DIGITAL NEXT** enables expertise to be shared within the company via videos – quickly, easily and across facilities and plants: by experts for experts.

IMPORTANT: no previous knowledge is needed to use **Industrial Tube**.

2

THE ADVANTAGES OF INDUSTRIAL TUBE:

- Quickly share, save, preserve and pool company expertise
- Simple to use, no previous knowledge needed
- Interdisciplinary use and application of a company-wide knowledge platform
- Consideration of quality and safety standards
- Safeguard internal process know-how

WORKING EFFICIENCY:

- Shorter downtimes
- Employee flexibility

TRAINING EFFICIENCY:

- Availability of training

IMPROVED PROCESS RELIABILITY:

- Documented knowledge

SAVINGS POTENTIAL:

- Safeguard internal process know-how
- Travel expenses

3

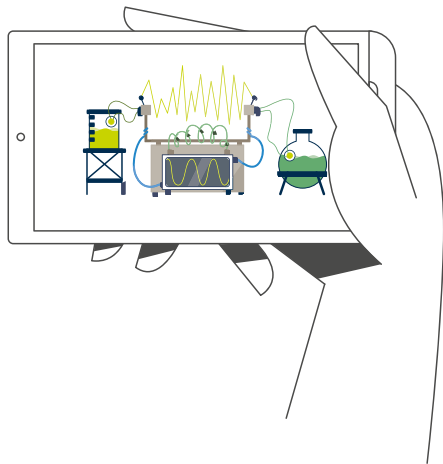

HERE'S HOW IT WORKS:

With the **Industrial Tube** app, individual work steps of an activity are filmed with simple step-by-step instructions.

After filming, the finished video is uploaded to the **Industrial Tube** web portal and multilingual subtitles and keywords are automatically added.

These keywords help the finished video to be found on the customer-specific **Industrial Tube** web portal and shared with colleagues.

**YOU THINK THAT
SOUNDS GOOD?**

SO DO WE!

**WE LOOK FORWARD TO
HEARING FROM YOU.**
